

I understand that Low Power FM is being introduced. With this I also understand that I may be losing access to K-LOVE, my Christian radio station, which is using a FM translator service. Please do not take this radio station that is supported by their listeners from the air. I really liked another radio station, that was taken from the air because another radio station that was stronger transmitted over it. K-LOVE has encouraged me and lifted me up when I was sad. Helped me see that others need my prayers and has actually been beneficial to people that have considered suicide. Also K-LOVE has encouraged some of our service men and women while in IRAQ or abroad. Why should we have to listen to another radio station that will not be as uplifting? Whether you believe in God or not, this station is genuine and encouraging. Some other stations have music (lyrics) that are downgrading and disturbing to others in the community. K-LOVE encourages people to love others, live peacefully, and believe that things will get better. I ask you "Please do not take my K-LOVE away". Thank you for taking the time to read this.
